

CORPORATE PROFILE

WHO WE ARE

We, Protune KS Aiyar Consultants are India's premier consulting firm offering customized value-added risk and process advisory services across wide range of industry sectors.

We blend experience and proven expertise with zeal and modern outlook, helping you achieve operational excellence by improvising processes, organizing controls and optimizing efficiencies.

Protune KS Aiyar reflects the highest standards of ethics and trust that our clients have placed in us since 1897, when Mr Kalyan Subramani Aiyar setup India's first Chartered Accounting firm.

With affiliation to LEA Global (Leading Edge Alliance), we are a foundation member of the world's second largest international professional association with over 220 affiliate firms across 106 countries that helps us in reaching and adopting leading practices from around the globe.

We have been recognized among 25 Most Promising Management & Strategy Consultants in India by Consultants Review Magazine in 2015 and Rising Consultant of the year 2016 in Risk Consulting category. With the right blend of experience, legacy, talent and market reach, our company is one of the fastest growing consulting companies in India as on date.

With Headquarters in Mumbai and offices across India, Protune KS Aiyar Consultants are a Pan-India service provider for risk and process advisory services.

Our company has a team highly motivated consulting professionals who come with diverse consulting careers and experience of working with large international corporate houses. Our team is always willing to walk the extra mile with their clients to achieve the best outcome and to achieve your goals.

OUR SERVICES

Our in-depth knowledge and consulting experience across sectors enables you to implement the best-in-class practices that help you race towards your goals and attain sustained profitability. Collaborative approach helps you achieve the best outcomes and adopt industry best practices.

Protune KS Aiyar Consultants have expertise in delivering solutions that are focused on improving efficiency of operational processes and building a self-sustaining control framework for an organization.

An effective control environment helps an organization establish efficient operational processes. This can be achieved by:

-  Establishing adequate internal control framework
-  Adopting efficient policies and procedures
-  Building culture of transparency and discipline
-  Monitoring and periodic review of KPIs

Our range of value-added solutions help you achieve this across your organization.

1. PROCESS AUDIT SERVICES

Our value added risk based internal audit service including SOX, IFC, SSAE16 reviews which brings to the table best in class risk assessment and analytical procedures to identify improvement areas for your internal processes to establish highest standards of governance. Operational areas that are critical to the business are covered Eg: Compliance, Revenue cycle, Procurement, Supply Chain, Manufacturing Operations, Finance & Accounts, IT and support, HR & Payroll etc.

2. PROCESS DESIGN SOLUTIONS

With our experience in designing end-to-end operational processes, we help clients implement and roll-out standard operating procedures documents, policies and procedures for critical processes within an organization to establish streamlined control design. We also conduct workshops to disseminate key process highlights to various teams in the company.

3. ENTERPRISE RISK MANAGEMENT

With our focused analysis and approach, we help clients with enterprise risk management for their organizations and setting up risk management frameworks that shield them from operational and financial risks while assigning clear responsibilities.

4. COST OPTIMIZATION

We focus on both critical and non-critical expense heads to identify areas for cost optimization and exhibit significant bottomline impact to our clients. If not a hard cash saving, we help clients save time and energy they spend on processes thereby leading to significant improvement in performance of human capital.

5. BUSINESS INTELLIGENCE & PROCESS AUTOMATIONS

We identify and implement measures to improve business intelligence for you. This includes customized IT enabled tools and enablers for Analytics, MIS reporting, Regulatory compliance etc. Our inhouse developers team implements easy to use IT solutions for you.

OUR VALUE PROPOSITION

As a boutique consulting firm with focused expertise on process and risk consulting, ProtuneKSAiyar Consultants Pvt. Ltd. offers best-in-class, tailor-made experience to its clients.

We follow best-in-class internationally accepted principles for quality assurance and valuedelivery.

Our global experience and cross cultural exposure helps us blend into any geography and deliver the best work product.

We provide best-value for our services and guaranteed Senior level involvement on all our projects.

Our services have been availed by top organizations with fantastic feedback. Our firm features among the Top-25 Most Promising Management Consultants in India.
